Date 07AUG2020 Product 592829 was 696457 Alternator 59 Amp 794360 Voltage Regulator was 691188 496894S Air Filter Cartridge Score Customer Comment Its an easy to use website, very clear and easy to identify parts and they are genuine parts. I live in France and whatever I order they always seem to skip really quick. All rights reserved see terms and conditions. The aluminum engine was the perfect solution for the recently invented rotary lawnmower due to its lighter weight and lower cost. The idea for his first product came from an upperlevel engineering class project at SDSC. This first product was a sixcylinder, twocycle engine, which Stephen Foster Briggs developed during his engineering courses at South Dakota State. After his graduation, he was eager to produce his engine and enter the rapidly expanding automobile industry. Bill Juneau, a coach at South Dakota State, knew of Briggs ambition and the entrepreneurial interests of Harold M. Stratton, a

successful grain merchant who had a farm next to Juneaus farm, so he introduced the two. Briggs purchased an engine patent from A.O. Smith Company and began powering early washing machines and reel mowers as well as many other types of equipment. The company went public on the New York Stock Exchange in 1928. Some prewar engines were made with aluminum, which helped the company develop its expertise in using this material. Frederick P. Stratton, Jr. served as Chairman until his retirement in 2001. The resulting company is Strattec Security Corporation. The Beacon Group had previously purchased the Consumer Products Division of Generac Corporation now Generac Power Systems in 1998. This joint venture was notable for the manufacture of vertical and horizontal crankshaft engines from 12.5 to 22 hp 16 kW under the Vanguard brand. The completed single cylinder Vanguard engines were shipped directly to customers worldwide. MHI had exclusive marketing rights under their own brand name in Malaysia, Taiwan, South Korea and Japan.

In other countries both companies competed with the same product under their own brand names which led to considerable friction, and together with escalating production costs in Japan, caused this otherwise successful relationship to fail. Production stopped in 2011. It was improved five years later in 1958 with the introduction of the KoolBore all aluminum and SleeveBore aluminum, with a cast iron cylinder liner. The least costly, most common way of complying with the new regulation was to put a flywheel brake on the mower engine, to stop the engine and therefore the blade immediately when the handle was released. The EasySpin lobe hump was moved to the exhaust valve, but this reduced engine performance. Competitor Tecumseh had made a capacitor discharge ignition setup since 1968 for their cast iron engine models, expanding its availability and making it standard equipment on vertical shaft engines powering lawn mowers in late 1976, five years before the advent of the Briggs Magnetron. The logo has the name BRIGGS STRATTON in black letters on the white midsection of the masthead. The words 4 CYCLE ENGINE are on the red top portion of the mast and the city line MILWAUKEE, WISCONSIN, U.S.A. is written on the black bottom portion of the mast. Although the logo hadn't been changed much since then, the wording on the top and bottom sections of the mast were removed in 1985, although the company continued to use these two sections with the respective wordings ORIGINAL red section and SERVICE PARTS black section until 1989. Some variations include Some models also had forward neutral and reverse transmissions. The company employs over 3,000 employees in six states. Manufacturing plants are located in Poplar Bluff, MO; Auburn, AL; Statesboro, GA; and Munnsville, NY. By using this site, you agree to the Terms of Use and Privacy Policy. Orders will continue to ship.

The first number will be your model number, the second — your engine type number, and the third will be the code number. You must have JavaScript enabled in your browser to utilize the functionality of this website. Locate your product type and you will find a list of owners manuals, whether your machine is a walk behind, ride on mower or chipper shredder. Contact us here and we will be more than happy to help. Get the Rover you want today and pay it off over 36 months with zero interest.
