Visit the Canon Online Store It allows viewing of recorded images from the Canon Powershot Digital Cameras.Plugs directly into an AC power source allowing for uninterrupted recording of your special events and keeps your batteries ready to go.Effectively doubles the flash range of the camera. Comes with mounting bracket.The cable connects to your camera and to the USB port on your PC or MAC Computer. Comes standard with the EOS 1Ds Mark III, 1D Mark IV, 1D Mark III, 1Ds Mark II, 1D Mark II N, 1D Mark II, 5D Mark II, 7D, 5D, 50D, 40D, 30D, 20D, 10D, Digital Rebel XTi, Digital Rebel XT and Digital Rebel. Please see Compatibility tab for compatible models. It can capture 720p HD video

clips, and has Cannons latest image processor. It also features an HDMI output, so you can quickly hook it up to an HD TV for playing back photos and videos. That unfortunately is one of the few good things about the design. Cannon used a 2.8 inch widescreen LCD, but you have to drop down to a 9 megapixel wide aspect resolution to use the full screen for framing shots.http://www.pwpn.co.uk/uploads/userfiles/jvc-dvl805-manual.xml

If you shoot at its top resolution of 12 megapixels, youre left with roughly 2.3 inches of screen for your viewfinder. Also this rotating directional pad isnt labeled. It does have functions when you press up, down, left, and right on it. You have to look at the screen to see what direction controls what function. Cannon dropped a couple of its usual buttons as well 1 for printing, which is usually programmable to do additional actions on other models, and another for quickly changing exposure compensation. On the up side, the SD960 is small and comes in 4 color choices, and probably most importantly it takes very good photos with great color and exposure. The HD video is good too, but you dont get use of the 4X zoom while recording. If you tend to leave your camera in auto, this is a solid choice for a pocket camera, but youll have to look past its little design quirks.How to choose the best earbuds. Camera User Guide. If there is a problem with the camera while abroad, please return it to the country of sale before proceeding with a warranty claim to a Canon Customer Support Help Desk. For Canon Customer Support contacts, please see the customer support list supplied with your camera. Chapters 4 onward explain the advanced functions, letting you learn more as you read each chapter. Dayafterday delight. What could be better. PowerShot SD960 IS Highlights 12.1megapixel resolution, 4x optical zoom lens with Optical Image Stabilizer Canon's commitment to innovation defines the excitement of the PowerShot SD960 IS Digital ELPH. 12.1megapixel resolution is more than a number, it's your cuttingedge link to the outstanding clarity and quality you've always wanted in your images. Think bold and big, because razorsharp, oversized prints are a breeze. And think way beyond the typical picture format thanks to the 28mm wideangle lens with 4x optical zoom. Get the picture It's absolutely brilliant. The PowerShot SD960 IS Digital ELPH is equipped with Canon's acclaimed Optical Image Stabilizer Technology that automatically detects and corrects camera shakeone of the leading causes of fuzzy or blurred shots. Even when zoomed in, you can get the steady, crisp, brilliant images you'll be proud to shoot and share. And Canon's Optical Image Stabilizer Technology is so convenient to use. It functions perfectly with or without a flash.

HD movie shooting capability plus HDMI output The PowerShot SD960 IS Digital ELPH lets you record video in beautiful high definition 1280 x 720 pixels. The camera also makes it easy to enjoy HD movies and still photos on your HDTV with a miniHDMI connector for direct connection to a highdefinition monitor. You'll enjoy the HD experience with no degradation of image or audio in the signal, plus the ability to display up to 130 still images at once. Widescreen 2.8inch PureColor LCD II and wide viewing angle The PowerShot SD960 IS Digital ELPH gives you a large and wide 2.8inch LCD screen for excellent control when framing your shots. Canon's PureColor LCD II offers spectacular color, resolution and contrast even when viewed at an angle. The screen is highly durable and easy to see in any light with a scratchresistant, antireflective coating. It also features Night Display for easy viewing in low lighta perfect feature for gathering friends and family around to see your images. Smart AUTO intelligently selects the proper settings Just set the Canon PowerShot SD960 IS Digital ELPH to Smart AUTO and you're ready for maximum enjoyment from

your picture taking every time. It's a relaxing and satisfying way to shoot because you can completely concentrate on your subject knowing that the camera has the technical details covered. Advanced Canon technology intelligently analyzes your situation and shooting conditions. Then it automatically selects an appropriate setting from 18 specially defined settings. So whether you're photographing flowers, a captivating sunset, or your friends at the park, you can be confident that you're getting dramatic, memorable images. Shooting Modes Advanced presets for the best possible photos under certain conditions. With 20 Shooting Modes, you're ready for whatever shot comes your way.

New Active display technology for quickly switching between images Active Display is a fun new feature powered by an accelerometer built into the PowerShot SD960 IS Digital ELPH. When browsing through your images in playback, just give the camera a quick shake to advance or return images one frame at a time. Tilting the camera will activate continuous image advance, and tilting at a further angle will make the images advance more quickly. Simply tilt the SD960 IS to advance images A World of Advantages with Canon's Technology DIGIC 4 image processor has evolved Face Detection Technology that tracks the faces of moving subjects and lets the shooter enter the frame seamlessly with the Face Detection SelfTimer. DIGIC 4 Image Processor Canon's most advanced image processor, DIGIC 4, delivers evolved Face Detection Technology that keeps every face in every photo looking its very best. The technology finds and tracks the faces of moving subjects until you're ready to shoot, then delivers perfect focus. In addition, exposure, flash and white balance are compensated, so that faces exhibit natural skin tones and backgrounds are properly exposed.Using an internal database of thousands of different photos, iSAPS works with the advanced DIGIC 4 Image Processor to improve focus speed and accuracy, as well as exposure and white balance. A Face Detection SelfTimer automatically detects an increase in the number of faces and makes the appropriate adjustments. For instance, to include the photographer's face in a group shot, there's no need to rush in. Just put the camera on a stand or tripod, specify Face Detection SelfTimer, and the camera will wait for the photographer's face to get oncamera before it takes the shot. Motion Detection tracks moving subjects in a much larger range, and the Servo AF retains focus on a moving subject after the shutter button is pressed halfwayallowing you to wait for the perfect shot without refocusing.
