A rite of passage for musicians is having a song on top 40 hits the graphic radio. The Nielsen data analysis company tracks what people listen to every week in 19 different countries and compiles information for Billboard music cards. Mainstream Top 40The top 40 hits are taken from the Hot 100 list published weekly by Billboard magazine. There are a number of factors that determine whether a song makes the top 40 list a. These include: Sales: Nielsen tracks all sales of physical and digital records from 19 different countries, including the United States and Canada. This includes locations, mass merchants, retail chains, independent shops and digital downloads. Streaming music: The number of shows on online radio such as Pandora, Spotify, Apple Music, Yahoo Music and AOL Music are counted towards the total number of water courses. Playing a music video on YouTube also counts as a song game. Radio: Once a song becomes popular enough to be picked up by radio stations, it can earn a lot of traction and earn a point on the Billboard Hot 100. The Billboard Hot 100 is published weekly by Billboard magazine. Itis a list of the most popular 100-track songs in the United States Billboard tracks even if a song is higher or lower on the charts every week, its peak position and its total weeks on the chart. You can watch the music video and listen to almost all the songs directly on the Billboard website. In addition to the Hot 100, Billboard also tracks the Billboard 200 and the Artists 100. You can also see the top-level songs played on the radio, the first streaming songs, the first sales of digital songs and the first successes of the year. Hot 200 Albums Chart The Hot 200 Albums Chart tracks the best-selling albums of the week. Often the artist with the top-selling album is different from the artist with the single most sold on the Billboard 100. The Hot 200 Albums are published every Friday which is also the global release date for most new albums. To follow sales and streaming, the Chart Hot 200 Albums Albums program delayed within a few days to include a full week of sales. For example, if a graphics album on January 27, is the total number of listeners will be from January 12 to January 18 to January 18. Tracking album sales on January 12th.Sales and album sales are declining in recent years, the use of streaming services is on the rise. In recent years, audio streaming and video-on-demand services have set high records for streams. Music consumption is active, but music sales are down.radiothe largest AM/FM radio in the world is Iheradio. Radio is still the most popular way to consume music. For an artist to make the top 40, he needs to have high radio games. Nielsen tracks radio stations across the country and measures which songs are played. This information helps billboard track the best songs in the country.
