

I'm human

Here is a rewritten version of the provided text, incorporating occasional and rare spelling mistakes to make it more unique: Crop1 Crop2 Hybrid name Picture Watermelon Tomato Greetoma 90g Strawberry Tomato Berrytoma 60g Melon Tomato Melotoma 80g Strawberry Watermelon Strawmelo 90g Watermelon Melon Melomelo 110g Strawberry Melon Berrymelo 80g Potato Turnip Poturnip 60g Carrot Turnip Caroturn 50g Sweet Potato Turnip Sweeturn 60g Potato Sweet Polato Pototo 80g Sweet Potato Carrot Swarrot 70g Turnip Tomato Turmnato 50g Tomato Carrot Tocarro 60g Sweet Potato Tomato Sweetoma 70g Watermelon Turnip Waturnip 80g Watermelon Potato Watato 100g Carrot Watermelon Carramel 90g Watermelon Sweet Potato Melosweet 100g Turnip Strawberry Turnberry 50g Potato Strawberry Poberryto 70g Carrot Strawberry Carberry 60g Strawberry Sweet Potato Strawsweet 70g Turnip Melon Turnmelon 70g Potato Melon Potamelo 90g Sweet Potato Melon Sweetmel 90g Image by GameSkinny | Published: Jul 6, 2023, 04:18 pm This guide aims to make the variety of crops in Story of Seasons: A Wonderful Life a little less overwhelming. We've included tables to break down information about crops and crop fusion for Gen 2 hybrids as well. A-Rank crops sell for 30G more than B-Rank, while S-Rank crops sell for 60G more. Hybrid crops are unlocked after the start of Chapter 2. Our AWL guide to farming covers how to grow higher quality crops, so here we're focusing on the cost to purchase from Vesta's farm, what seasons they grow in, and their B-Rank selling price: CropCost to PurchaseSeason(s)B-Rank Selling PriceCarrot30GAutumn - Winter135GMelon50GSummer - Autumn210GPotato40GWinter - Spring180GStrawberry30GAutumn - Spring105GSweet Potato40GAutumn180GTomato30GSpring - Autumn105GTurnip20GSummer - Winter75GWatermelon60GSpring - Summer195G Hybrid Crops are more complex, and you create them by feeding two pieces of produce to Vinnie in Chapter 2. He'll give you a hybrid in return. Giving him the same item won't create any hybrids, and sometimes he just gives you higher grade seeds so you may have to give him the same set again. I've created a table below to make it easier to see what each combination produces: CarrotMelonPotatoStrawberrySweet PotatoTomatoTurnipWatermelonCarrotCameloPocaroCarberrySwarrotTocarrotCaroturnCarramelMelonCameloPotameloBerrymeloSweetmelMelotomaTurnmelonMelomeloPotatoPocaroPotameloPoberrytoPototoPomatoPoturnipWatatoStrawberryCarberryBerrymeloPoberrytoStrawsweetBerrytomaTurnberryStrawmeloSweet PotatoSwarrotSweetmelPototoStrawsweetSweetomaSweeturnMelosweetTomatoTocarrotMelotomaPomatoBerrytomaSweetomaTurmnatoGreetomaTurnipCaroturnTurnmelonPoturnipTurnberrySweeturnTurmnatoWaturnipWatermelonCarramelMelomeloWatatoStrawmeloMelosweetGreetomaWaturnipBlue When creating hybrid crops, you should be aware of the seasons they can grow in. Vinnie will inform you about this information, but I've also included an alphabetical list below for your reference. Some notable hybrids are: * Greetoma: This crop grows from Spring to Autumn. * Berrymelo: It thrives during Winter and Spring. * Carrot Turnip (Caroturn): This hybrid can be grown from Winter to Spring. * Sweet Potato Turnip (Sweeturn): Its growth season is from Winter to Summer. You may also want to check out our guides for bachelors and bachelorettes if you're looking for love in the Forgotten Valley while raising crops.
